

2023 Legislation Plan and Regulation Compilation Plan (Laws) of the National Communications Commission

No.	Regulation	Summary of Amendments
1-3	1. Partial provisions of the Radio and Television Act (Amendment) 2. Partial provisions of the Cable Radio and Television Act (Amendment) 3. Partial provisions of the Satellite Broadcasting Act (Amendment)	1. Adjust the control gap between cable television and IPTV. 2. Introduce the digital transformation of radio and television. 3. Introduce specifications that facilitate fair competition in the upstream and downstream cable television industry.
4	Over-the-Top Media Service Act (Establishment)	1. Facilitate the healthy development of OTT TV in response to the trend of digital convergence. 2. Maintain diverse audiovisual content and safeguard the audiovisual rights of the public.

2023 Legislation Plan and Regulation Compilation Plan (Regulations and Orders) of the National Communications Commission

No.	Regulation	Legislation /Summary of Amendments
1	Rules for the Technical Engineering of Cable Radio and Television Systems (Amendment)	Establish the basis for approval or rejection of the installation of cable radio and television equipment in view of national security considerations so as to safeguard the safety of the public telecom network.
2	Regulations on the Establishment and Operation of Satellite Earth Stations (amendments)	<p>甲.i.1. Re-define the scope of the Regulations to include “<i>those that establish a public telecommunications network, as well as radio broadcasting satellite earth stations set up by broadcasting and television businesses for communications with a satellite system.</i>”</p> <p>甲.i.2. Amend requirements related to frequency application and assignment.</p> <p>甲.i.3. Considering that public telecommunications network operators deploy satellite earth stations with an antenna and a diameter of less than three meters as a master control station or gateway for a satellite communications network, amend the Regulations to include such stations into a review mechanism.</p>
3	Technical Specifications for Satellite Earth Radio Stations. (Amendment)	Amend the definition and applicable subjects.
4	Regulations Governing the Establishment and Use of Dedicated Telecommunications Network for Mobile Broadband (Establishment)	<p>1. Stipulate network categories and qualifications for applicants for the 4.8GHz-4.9GHz frequency band.</p> <p>2. Specify application procedures for the 4.8GHz-4.9GHz frequency band, including both the information disclosure stage and the installation stage of the application.</p> <p>3. Include station categories and control differentiation for the 4.8GHz-4.9GHz frequency band.</p>

5-6	Draft Amendments to Articles 1, 3, and 6 of “Technical Specifications for Mobile Telecommunications Terminal Equipment” and Articles 3 and 6 of “Technical Specifications for Radio Frequency Equipment of Mobile Communications Base Stations”	1. Refer to the Bureau of Standards, Metrology and Inspection, M.O.E.A. announcements CNS15936 and CNS15598-1; thus, amend the latest inspection standards for electromagnetic compatibility and electrical safety. 2. Incorporate the 4.8-4.9GHz dedicated network frequency band into the technical specifications and update the output power limit.
7	Regulations Governing the Assessment and Examination of Satellite Broadcasting Businesses and Foreign Satellite Broadcasting Businesses (Amendment)	As part of the broadcasting and television evaluation system, establish a fast track system for satellite broadcasting businesses that perform outstandingly and have fulfilled certain conditions, so as to enhance the supervision of communications broadcasting, as well as streamline administration procedures and ensure greater convenience for the public.
8	Processing Fee Criteria for Satellite Broadcasting Businesses and Foreign Satellite Broadcasting Businesses (Amendment)	According to the current Processing Fee Criteria for Satellite Broadcasting Businesses and Foreign Satellite Broadcasting Businesses, a fee of NTD50,000 has been set for the establishment application or license renewal. In order to adjust the processing fee criteria, this amendment distinguishes the review costs for news channels and general channels based on the estimations of actual cost.
9	Regulations Governing Radio Frequency Interference (Establishment)	Establish Regulations Governing Radio Frequency Interference to serve as the basis for the competent authority to deal with the interference of radio frequency.

2022 Legislation Plan and Regulation Compilation Plan (Administrative Rules) of the National Communications Commission

No.	Regulation	Summary of Amendments
