TEL Strategic Action Plan 2016-2020: Planning and Prioritization

1.	Develop and Support ICT Innovation

The TEL WG will continue to promote infrastructure investment, connectivity and support the productive and innovative use of ICTs in line with technological trends. It will champion strategic opportunities for new ICTs and services, and will sponsor leadership on ICTs by bringing together ICT leaders from among stakeholder groups to share knowledge and form collaborative partnerships. TEL WG will explore ways ICTs can address emerging challenges such as disaster risk reduction and management, social responsibility, and help foster resilient, diverse, inclusive, and prosperous economies.

No.	Objectives	Actions	DSG	LSG	SPSG	Timeline	Remarks
1.1	Promote innovation and value creation in ICTs	a) Strengthen cooperation in the field of research into new business models based on innovative use of ICTs.	Industry Roundtable: ICT Innovation [2016-2020]		x	2016 - 2020	Economies to continue working on the Roundtable
		b) Facilitate cooperation with stakeholders.	Industry Roundtable: ICT and innovation [2016-2020]	Industry & Regulatory Roundtables [2016-2020]	x	2016 - 2020	Economies to continue working on the Roundtable
		c) Promote policy and regulatory cooperation to enable ICT innovation, economic growth and address convergence, new services and changes in use.	X	Workshop on the next generation broadcasting (4K/8K) - **Japan** - TEL54, 2016	x	2016-2020	Economies to consider interest and propose new projects
		d) Promote availability and use of open data.	Improvement of the living standards of socially deprived		x	2016 - 2017	Economies to consider interest
