Table 7

Affidavit

Purpose: application for the type approval certificate for controlled telecommunications radio-frequency device		
Device name	The applicant applies for the type approval certificate for controlled telecommunications radio-frequency device according to the Regulations Governing Compliance Approval for Controlled Telecommunications Radio-Frequency Devices, as follows:	
	Device name	Brand
	Model no.	
Matters of affidavit	<b>Item</b>	<b>Description</b>
	<input type="checkbox"/> Cyber security	Declares not to declare qualification in a cyber-security test based on the qualification in the RF hardware function review for the type approval certificate for controlled telecommunications RF device.
	<input type="checkbox"/> Review material confidentiality <input type="checkbox"/> Not applicable	Declares that the product has not yet <b>been</b> displayed or sold in Taiwan or any foreign country; for confidentiality, the applicant declares confidentiality for the <input type="checkbox"/> Device name, <input type="checkbox"/> brand and model, <input type="checkbox"/> type approval certificate; <input type="checkbox"/> photo(s) of appearance; <input type="checkbox"/> inspection or test report not including photos of interiors and circuit board; <input type="checkbox"/> photos of external power supply and accessories of the controlled telecommunications RF device or non-plug-and-play RF module (component) in the said application; For complete final product, <input type="checkbox"/> brand and model; <input type="checkbox"/> photos of appearance; and <input type="checkbox"/> others: _____; the confidentiality will not expire until: _____ (date). In the case where the product is to be sold publicly during the confidentiality period, <b>notice shall be given to the original certification body to cease the confidentiality prior to public sale.</b>
	<input type="checkbox"/> Low-power RF device <input type="checkbox"/> Not applicable	Declares that every low-power RF device sold in the market is provided with a user’s manual or instructions in traditional Chinese, and that the contents of the user’s manual or instructions are provided and the qualification certificate issued by the certification body complies with the requirements set forth in 3.8 of the Technical Specifications for Low-Power Radio Frequency Material.
	<input type="checkbox"/> Wireless information transmission equipment <input type="checkbox"/> Not applicable	Declares that the following are specified in the user’s manual or instructions in addition to the requirements set forth in 3.8 of the Technical Specifications for Low-Power Radio Frequency Material: <input type="checkbox"/> The operations of any nearby radar system shall not be compromised; <input type="checkbox"/> High-gain directional antenna is used only for fixed point-to-point systems.
	<input type="checkbox"/> Device requiring professional installation <input type="checkbox"/> Not applicable	Declares that controlled telecommunications RF device that is provided with multiple power settings and can be coupled with antennas of different gain complies with the following: 1. It shall be installed and set up by a professional engineer and shall not be sold to general consumers directly; 2. The information shown in the previous subparagraph shall be included in the user’s manual and on the device body where it is clearly visible; 3. The user’s manual shall include all necessary information to guide the professional engineer through the correct installation and setup of the product.
	<input type="checkbox"/> Remotely controlled drone <input type="checkbox"/> Not applicable	Declares that the following notifications are on the packaging: 1. No operating of object that may compromise flight safety in the vicinity of airport (including aerial drone photography and remotely controlled drone); for flight safety, it is prohibited to operate any object that may compromise flight safety within a certain distance of an airport (including aerial photography drone and remotely controlled drone); a violation is punishable of a fine of NT\$300,000 to 1.5 million. For further information, visit the website of Civil Aeronautics Administration > <a href="#">“Aviation Industry”</a> > <a href="#">“Drones”</a> > 2. Letter of Civil Aeronautics Administration, no. Zhan Wu 1065009776 and dated May 09 2017.
	<input type="checkbox"/> Wireless multimedia Set-top box <input type="checkbox"/> Not applicable	<b>1.</b> Declares that the manufacturer shown in the application form for type approval of controlled telecommunications radio-frequency device matches the one in the application for product certification registration or type approval to Bureau of Standards, Metrology and Inspection, MOEA, and that the wireless network multimedia set-top box or TV stick stated in the application form for type approval of controlled telecommunications RF device is not provided with any firmware containing any unlicensed audio and video program or channel or preloaded or downloaded links, such as APK. <b>2.</b> Declares that we have not agency or distribution of China people, legal persons, organizations or other institutions, and we will not engage in OTT-TV and intermediate input services or related commercial services (such as "pre-loading" OTT TV application (app) from China) <b>3.</b> Declares that every low-power RF device sold in the market that Warning(s) in traditional Chinese: 「In order to respect intellectual property rights, do not access to unauthorized audiovisual programs and channels or install related firmware, APKs and other programs. <b>4.</b> shall be indicated on the body where it is highly visible.
	<input type="checkbox"/> Tablets, smart TVs <input type="checkbox"/> Not applicable	Declares that there is no agency or distribution by PRC Chinese, legal persons, organizations or other institutions engaged in OTT-TV and intermediate input services or related commercial services (such as "pre-loading" OTT TV application (app) from China)
	<input type="checkbox"/> Statement of compliance <input type="checkbox"/> Not applicable	<input type="checkbox"/> Declares that the requirements of technical specifications for controlled telecommunications radio-frequency devices are applicable to the said controlled telecommunications radio-frequency device; <input type="checkbox"/> Declares that the requirements of technical specifications for controlled telecommunications radio-frequency devices are equivalently applicable to the said controlled telecommunications radio-frequency device; <input type="checkbox"/> Declares that the device name, brand, model, specifications and test report in the documents provided match the device name in the application form; <input type="checkbox"/> Declares that the permission to use the inspection or test report provided has been granted by the original applicant of the inspection or test report.

**The undersigned guarantees all of the above. In the case of any violation of above or any provisions of subparagraph 8, Paragraph 3, Article 22 of Regulations Governing Compliance Approval for Controlled Telecommunications Radio-Frequency Devices, without corrective action being undertaken within a prescribed period, the undersigned agrees to be subject the competent authority or original certification body to the withdrawal or cancellation of the certificate mentioned above and any consequential liability in the related event, with no objection.**

**The undersigned**
