Appendix 4

CALCULATION STANDARDS TABLE OF
SATELLITE COMMUNICATIONS FREQUENCY

Station category	Calculation Formula（per station）	remarks
1. Satellite fixed earth station 2. Mobilized Satellite fixed earth station（SNG、Fly Away）	$\left\{\left[\dfrac{BW}{1MHz}\right]\times 5{,}000\right\}\times d$	1. BW：means the assigned bandwidth 　d：adjustment factor（as annex 2） 2. The bandwidth of is smaller than 1 MHz, shall be calculated as 1 MHz; bigger than 72 MHz shall be calculated as 72 MHz 3. The satellite earth station with reception function will not be charged.
